Handle Your High-Flow Pumping With A Rugged, Durable Aluminum Head Peristaltic Pump

The New Aluminum Head Peristaltic Pump is Graymills latest innovation for those pressroom environments where traditional plastic head pumps can't handle the pressure. This durable pump head can handle high-speeds and abusive environments with its rugged construction.

Model	Description
PQLM-VE	Metal Head PQL – 115/230VAC @ 50/60Hz – Standard PQL Drive Package
PQLM-VE-CE	Metal Head PQL – 115/230VAC @ 50/60Hz – Standard PQL Drive Package – CE Version
PQLM-IKF	Metal Head PQL – 230/460VAC @ 50/60Hz Three Phase – Explosion Proof – DAFR-A/B Required for Operation – 230VAC Operation Only
PQLME-IKF	Metal Head PQL – 230/460VAC @ 50/60Hz Three Phase – Explosion Proof – DAFR-B Required for Operation – 230VAC Operation Only – ATEX Motor
PQLM-VWE-RC	Metal Head PQL – 115/230VAC @ 50/60Hz – Washdown unit with Remote Control
C-PQLM	Spare Head – VE/VE-CE/VWE-RC Units ONLY
C-PQLM-K	Spare Head – IKF Units ONLY
